

JSEcoin is a consumer focused web platform built on top of our browser mined blockchain

How It Works

1. A webmaster sets up the JSEcoin code snippet on his website at example.com

2. Alice sends Bob a cryptocurrency transfer using the JSEcoin app

3. Visitors to example.com start hashing/mining the block data with Alice's transfer

4. The website owner is rewarded for helping secure the blockchain

5. The block containing the transaction is hashed and published to the public blockchain

Environment

Traditional cryptocurrencies consume huge amounts of power, the bitcoin network alone consumes more power than the entire population of Ireland. JSEcoin is mined using background resources within a web browser tab. The CPU usage for our hashing algorithm is less resource demanding than the loading of a video advertisement. By using surplus CPU availability within the browser we can efficiently hash data at scale to secure the JSE blockchain.

Investors

ICO starts July 11th 2018 to raise the funds required to build a governing company and market to new users.

Get whitelisted here: <https://jsecoin.com/whitelisting>

Investments over \$10,000 require KYC/AML compliance.

Exchange listing will take place after the ICO, at this time investors will be able to trade their JSE tokens at open market value on 3rd party exchanges.

Key Facts

- 🕒 Live platform since August 2017
- 🕒 Website mining is opt-in only and consumes less resources than a video advertisement
- 🕒 Platform provides fee-free fast transfers with 30 second block cycles
- 🕒 As of June 2018 we have 18,000 websites setup with more than 17 million opt-in miners and 70,000 registered platform users
- 🕒 Exchange listing will immediately follow the ICO which starts on the 11th July 2018

Webmasters

The platform includes a suite of tools to empower webmasters to monetize their content via cryptocurrency.

Use our merchant tools to accept cryptocurrency payments and subscriptions online.

Browser based mining is safe, and will not affect user experience. Early adopters stand to make the most while competition is relatively low.
