

## JSEcoin is a consumer focused web platform built on top of our browser mined blockchain

Problems	JSE Solution
Unsustainable power usage of traditional cryptocurrencies	Mined using excess cpu power that would otherwise be wasted
Limited mining distribution to corporate mining pools	Unique rewards system ensures fair distribution to individuals
Monopolies and discontent in digital advertising	New methods to monetise content for website owners

1. A website owner sets up the JSEcoin code on their website

2. Alice sends Bob a cryptocurrency transfer using the JSEcoin app

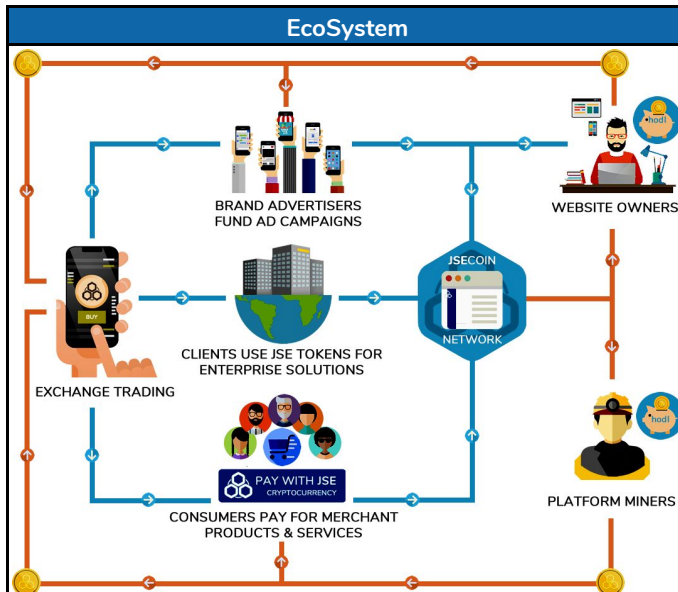

3. Visitors to the website opt-in and start mining Alice's transfer data.

4. The website owner is rewarded for helping to secure the blockchain

5. The transaction is secured and published to the public blockchain

The JSEcoin platform has been operational since 2017 and scaled to over 120,000 registered users.

**Ad-Exchange** - Advertisers will be able to use the JSE token to purchase ad space on the publisher network. By improving inefficiencies we can add value to a \$200 billion ad-tech industry.

**Enterprise Solutions** - Enterprises solutions will provide 3rd parties with blockchain, cryptography and bot detection services.

**Merchant Tools** - Enable website owners to sell goods, services and subscriptions via their websites with easy to integrate "purchase with cryptocurrency" buttons.

### Website Owners

The platform includes a suite of tools enabling website owners to monetize their content. Publisher mining uses opted-in visitor resources (less than a video advertisement) to contribute to a sites cost of content. Browser based mining is safe, and will not affect user experience. Early adopters stand to make the most while competition is relatively low.

Simple to use merchant tools enable e-commerce and subscription sites to accept cryptocurrency payments.

### Token Details

<b>Token Price</b>	\$0.002722 USD
<b>Market Cap</b>	\$1,207,038 USD
<b>Circulating Supply</b>	443,479,880 JSE
<b>CoinMarketCap</b>	 Rank 839
<b>CoinGecko</b>	#492
